

## Decontaminate score top marks with Achilles UVDB

*We are proud to announce we are now Achilles UVDB Accredited, scoring 100% within each section.*

Asbestos and hazardous material remediation specialists [Decontaminate](#) have recently been verified as Achilles UVDB Accredited (Category B2), scoring 100% in each of the three sections: Health & Safety, Environment and Quality.

Achilles UVDB is the community for the UK utilities industry. It enables the utilities sector to use Achilles' proven supplier pre-qualification system to manage risk within the supply chain and comply with EU regulations. Launched in 1996, Achilles UVDB is the largest Achilles community that is also used by the airports and ports sector. Achilles UVDB is managed by a Steering Group comprising of utility buyers to drive industry best practice.

Marc Smith Group SHEQ Director said:

*"This accreditation is testament to the high standards we strive to uphold throughout all facets of our business in terms of corporate governance and legislation requirements. We take all aspects of health and safety seriously and this latest accreditation compliments our reputation in facilitating business continuity for our clients and continual improvement against the latest industry best practice."*
