## Job Specification – Principal Designer

Derisk are widely recognised as experts in the field of Construction Risk and Safety Management, supporting several Blue-Chip clients in managing the Occupational Safety and Health risks associated with construction and facilities management in the UK and EMEA regions.

The ideal candidate will possess a minimum of 5 years' experience in the field of Occupational Safety and Health with a strong focus on CDM.

The Central London Head Office based role includes but is not limited to;

- Carrying out of Principal Designer duties in line with the requirements of the CDM Regulations 2015
- Providing clients with detailed fee proposals
- Providing accurate and pragmatic health and safety advice, guidance and support to clients and their professional teams
- Attending project meetings and undertaking site inspections
- Building and maintaining good working relationships with clients, design teams and contractors

## Skills & Experience

- A minimum of 5 years' relevant experience
- NEBOSH Construction and/or General Certificate
- NVQ Level 4/5 Occupational Health & Safety (or working towards it)
- Relevant Design Qualification (desirable but not essential)
- Be a member of a relevant professional body (i.e. Association for Project Safety)
- Graduate Membership of IOSH (minimum)
- Client facing experience
- Demonstrable experience of working and advising clients during construction projects
- Proficiency in using Microsoft programmes
- Good oral & written communication skills.
- Commitment to Derisk policies and values
- Adaptable, self-motivated, enthusiastic & hard working.

The candidate will have every opportunity to progress in to a more senior role within the business.

Derisk offers a competitive salary for a candidate who can demonstrate the correct level of experience and the desire to be part of a dynamic and exciting business, for further information, please contact Mark O'Mahony via email in the first instance.
